

KIDS' FOOTWEAR SIZING GUIDE

Kids' feet are constantly growing. Use this chart to measure the length of your child's feet (in centimetres) ahead of making a purchase.

- 1** Print the following page on 8.5" x 11" paper with page scaling set to "None". Do NOT select "Fit to Page" to ensure accuracy of measurements.
 - 2** Once printed, lay the paper on a hard surface and place your child's heel (barefoot or in thin socks) where labeled "PLACE HEEL HERE".
 - 3** Make sure they are standing straight with their weight distributed equally on both feet.
 - 4** Take note of the measurement line that falls just past their longest toe.
 - 5** Make sure to measure both feet, selecting the bigger of the two measurements.
 - 6** Refer to the size chart of the kids' brand you're looking to purchase, identifying the size conversion that closest matches their foot length in centimetres.
